

**Did you know...**

**HOLLINGSWORTH**

**Offers a Large Lug Line**

UNPLATED

ELECTRO-TIN PLATED

and the **tooling** for **crimping!**

### LARGE LUG LINE

Hollingsworth offers lugs in the 1/0 to 4/0 wire range. Plating options include **Tin**, **Nickel**, and **Gold**. These terminals are made from pure copper for highest conductivity. Standard plating is electro-tin to assure corrosion resistance.

Serrated "V" grooves in the barrel of each terminal firmly grip the wire to assure maximum holding power. Flared Entry Nylon Insulation is available and dyed to standard commercial specifications. Stud sizes range from 1/4" to 3/4".

### HOLLINGSWORTH H880 CRIMP PRESS

- Fast, safe, consistent crimps. **PERFECT CRIMP EVERY TIME**
- Dies custom made for all types of terminal styles.
- Standard 110 voltage
- Terminal crimping reels are side mounted on an integral support bracket
- Adjustable wire stops available for various strip lengths
- Optional Tape Drive available to run terminals on tape from 6 gauge to 1 gauge
- Will crimp loose piece up to 4/0

### OPERATION

#### Manual Mode (Standard)

The operator places the stripped wire end in the terminal between the crimping jaws and depresses the foot pedal. Foot pedal actuates the crimping jaws.

### TERMS

Our Crimp Presses are available through our simple lease program. Based on usage, measured by annual purchases, credits are earned. These credits can fully subsidize the lease.

We stand by our machines. Our Engineers and Tool experts are available to provide quick responses to your needs.
