We offer

**CORRECT/CRIMP**<sup>TM</sup>

**Tooling**

*Does your crimp take place off the assembly line? Do you need UL/CSA Certification?*

Our tooling is designed specifically to provide a Correct/Crimp<sup>TM</sup> which **meets UL, CSA, and MilSpec SAE AS7928** when used with listed Hollingsworth terminals.

## H28 Pneumatic Crimping Cylinder

Shown with the optional bench-mount assembly and foot pedal, this tool may also be used as a hand-held device or suspended from a cable for quick access. The H28 uses interchangeable dies to provide reliable and easy high quality crimps for a variety of insulated and non-insulated terminals. Dies sold separately.

## Take a look at some of our Ratchet Tools.

### H4A

This easy to use tool crimps all 22-10 gauge Non-Insulated Ring Terminals, Spades, and Butt Connectors

### H6E

Crimps 16-12 gauge heavy duty and 12-10 gauge terminals, butt connectors, and parallels

### H7B

Complete cycle crimp for insulated terminals, butt, and parallel connectors for 22-14 gauge Locator tab included for easy crimping

### H43

This heavy duty, precision tool provides quality crimping of quick disconnect-slip on terminals, 22-14 gauge

### "Big Blue" H20

Our easy to use 8-2 gauge crimp tool provides fast and accurate crimping for Insulated and Non-Insulated Terminals and Butt Connectors

Is your tool producing the optimum volume efficiency? Our fully qualified, on-site Tool Experts will identify the right tool for your requirements.

We have the ability to grow with you. Ask about our **H270 Automatic Crimp Machine** and terminals on tape.

HOLLINGSWORTH

We stand by our products. Our Engineers and Tool experts are available to provide quick responses to your needs.

**We won't crimp your style, just your terminals!**
