RESTRICTIONS AND CONDITIONS

- a. This notification of qualification does not guarantee acceptance of the products in any future purchase.
- b. This notification of qualification does not constitute a waiver of any requirements of the specification(s) or of the provisions of any contract.
- c. Any use of this approval for publicity, advertising, or sales shall not state or imply that the products are the only products of that type so qualified, or that the United States Government in any way recommends or endorses the products. Failure to comply shall be cause for removal of the products from the QPL.
- d. This notification of qualification applies only to products manufactured in, and processed used in, the plant(s) specified in QPL-7928.
- e. This notification of qualification applies to amendments or revisions of the specifications, current as of the date of this letter, unless otherwise notified.
- f. This notification of qualification applies only to the specific part numbers manufactured in, and processed used in, the plant(s) specified in the QPL-39029. We must be advised in advance of any intended change to the products and must be provided with a complete description of the change. Failure to notify us of any change to the products shall be cause for removal from the QPL regardless of the extent of the change.
- g. Failure to comply with retention of qualification requirements listed in the subject specification shall be cause for removal from the QPL.
- h. We reserve the right to retest production units for qualification conformance and to withdraw qualification approval if warranted.
- i. To maintain qualification, the manufacturer must maintain an active CAGE CODE in SAM (System for Award Management). Failure to comply will result in removal from the QPL.
